

Intell 9

IC 75-2493
5 September 1975

MEMORANDUM FOR: Chairman, Information Handling Committee
SUBJECT: Community Bibliographics
REFERENCE: Your memo of 22 August 1975

25X1 1. I read your memo and the study done by [] with considerable interest. I would agree with most of your initial findings and certainly share many of your apprehensions. I do not, however, understand why you could not provide a response to Hall, Graham, or whoever based on the ideas and the materials you have already assembled and presented.

STAT 2. The notion that PRD should handle this account because of [] interest--as expressed via the NSCIC Working Group--strikes me as a remarkably straightforward non sequitur. This is clearly an information handling problem, as indeed your papers make quite clear. But you have my sympathy and you will have my support.
